FUNDRAISING 101

Now that your teams are registered and raring to go, it's time to start raising funds for children's causes!

Daunting though a donation drive could seem at first, it might help you to remember that it can and does change the lives of thousands of children every year. You can take pride in being part of this outpouring of generosity.

Over the years, 24h organizers have been so inspired by your creativity and dedication to the cause that we produced this Fundraising 101 Guide.

Read on for tips and tools that can help your fundraising efforts.

FUNDAMENTAL PRINCIPLES

1. SET A TARGET!

The more ambitious, the better, since it encourages potential donors to help you reach it. You can change your target at any time on your profile page. Once you reach the goal, go ahead and set it higher. Generosity tends to snowball!

2. KNOW YOUR CAUSE!

Make a point of knowing as much as you can about your team's sponsored child. Each of these children has a moving story to tell. They embody the cause, they are the reason the 24h exists, they are why your commitment matters. Share their story with your community to put a human face to the concrete impact of each donated dollar.

Share this information with your potential donors.

Example

Imagine receiving the news that your baby has been diagnosed with cancer just when you've become a parent... That's what Miro and his family had to deal with when he was barely one year old. Find out how the 24h changed their lives by bringing a little comfort to this unfathomable ordeal, and how they can now look forward to the future with optimism, thanks to your donations, which contribute to advance research and save more lives.

REACH OUT TO EVERY CONTACT IN YOUR NETWORKS

Example of a LinkedIn post:

5. THANK YOUR DONORS!

Never underestimate the impact of a grateful acknowledgement. Donors like to know that by supporting you, they've contributed to a cause that's bigger than themselves. Find a way to thank each person individually.

You can thank donors by email, with a Facebook message (private or on your wall), or in a comment on a post. All methods are acceptable! The point is to make each donor feel special and appreciated. It is also a good way create a connection between them and the cause, which helps them feel even more strongly that their donation is worthwhile.
